Use multiple source tags and fallback message.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q4. Real-Time Example Challenge

Create podcast/music website section.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q5. Big Topic Used Challenge

Create Spotify-style audio dashboard.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

VIDEO TAG

Q6. Syntax Challenge

<video controls>

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q7. Important Attribute Challenge

Use poster, autoplay, muted and loop.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q8. Secret Solution Challenge

Create responsive video structure.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q9. Real-Time Example Challenge

Create movie trailer webpage.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q10. Big Topic Used Challenge

Create Netflix-style OTT section.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

IMG TAG

Q11. Syntax Challenge

```
<img src='photo.jpg' alt='photo'>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q12. Important Attribute Challenge

Use alt, width, height and title.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q13. Secret Solution Challenge

Use lazy loading and responsive images.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q14. Real-Time Example Challenge

Create product gallery section.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q15. Big Topic Used Challenge

Create eCommerce homepage banner.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

TABLE TAG

Q16. Syntax Challenge

```
<table><tr><td></td></tr></table>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q17. Important Attribute Challenge

Use rowspan, colspan and cellpadding.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q18. Secret Solution Challenge

Use thead, tbody and tfoot.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q19. Real-Time Example Challenge

Create marksheet table.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q20. Big Topic Used Challenge

Create ERP analytics report.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

FORM TAG

Q21. Syntax Challenge

```
<form></form>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q22. Important Attribute Challenge

Use action, method and autocomplete.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q23. Secret Solution Challenge

Use fieldset and hidden fields.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q24. Real-Time Example Challenge

Create internship registration form.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q25. Big Topic Used Challenge

Create hospital management form.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

INPUT TAG

Q26. Syntax Challenge

```
<input type="text">
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q27. Important Attribute Challenge

Use required, minlength and maxlength.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q28. Secret Solution Challenge

Use hidden field and validations.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q29. Real-Time Example Challenge

Create OTP verification system.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q30. Big Topic Used Challenge

Create HR login system.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

BUTTON TAG

Q31. Syntax Challenge

```
<button>Submit</button>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q32. Important Attribute Challenge

Use type='submit' and disabled.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q33. Secret Solution Challenge

Use button with icons and forms.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q34. Real-Time Example Challenge

Create form action buttons.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q35. Big Topic Used Challenge

Create admin panel controls.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

SELECT TAG

Q36. Syntax Challenge

```
<select><option></option></select>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q37. Important Attribute Challenge

Use selected and multiple attributes.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q38. Secret Solution Challenge

Create dynamic category selection.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q39. Real-Time Example Challenge

Create country/state dropdown.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q40. Big Topic Used Challenge

Create online exam filter system.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

TEXTAREA TAG

Q41. Syntax Challenge

```
<textarea></textarea>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q42. Important Attribute Challenge

Use rows, cols and placeholder.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q43. Secret Solution Challenge

Create feedback textarea validation.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q44. Real-Time Example Challenge

Create complaint form textarea.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q45. Big Topic Used Challenge

Create customer support system.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

IFRAME TAG

Q46. Syntax Challenge

```
<iframe src=""></iframe>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q47. Important Attribute Challenge

Use width, height and allowfullscreen.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q48. Secret Solution Challenge

Create responsive iframe structure.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q49. Real-Time Example Challenge

Embed Google Maps or YouTube.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q50. Big Topic Used Challenge

Create webinar platform.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

UL & OL TAGS

Q51. Syntax Challenge

```
<ul><li></li></ul>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q52. Important Attribute Challenge

Use type and nested lists.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q53. Secret Solution Challenge

Create multilevel nested structure.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q54. Real-Time Example Challenge

Create syllabus navigation.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q55. Big Topic Used Challenge

Create sidebar dashboard menu.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

A TAG

Q56. Syntax Challenge

```
<a href="">Link</a>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q57. Important Attribute Challenge

Use target, title and download.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q58. Secret Solution Challenge

Use mailto and tel links.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q59. Real-Time Example Challenge

Create navigation menu.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q60. Big Topic Used Challenge

Create documentation website.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

HEADER TAG

Q61. Syntax Challenge

```
<header></header>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q62. Important Attribute Challenge

Use proper semantic structure.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q63. Secret Solution Challenge

Create SEO-friendly header.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q64. Real-Time Example Challenge

Create company website header.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q65. Big Topic Used Challenge

Create eCommerce website topbar.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

NAV TAG

Q66. Syntax Challenge

```
<nav></nav>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q67. Important Attribute Challenge

Use navigation links properly.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q68. Secret Solution Challenge

Create responsive navigation layout.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q69. Real-Time Example Challenge

Create website menu.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q70. Big Topic Used Challenge

Create LMS dashboard navigation.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

SECTION TAG

Q71. Syntax Challenge

`<section></section>`

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q72. Important Attribute Challenge

Use proper content grouping.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q73. Secret Solution Challenge

Create reusable sections.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q74. Real-Time Example Challenge

Create landing page sections.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q75. Big Topic Used Challenge

Create SaaS homepage.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

ARTICLE TAG

Q76. Syntax Challenge

`<article></article>`

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q77. Important Attribute Challenge

Use independent content blocks.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q78. Secret Solution Challenge

Create SEO-friendly blog article.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q79. Real-Time Example Challenge

Create news article layout.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q80. Big Topic Used Challenge

Create blogging platform.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

ASIDE TAG

Q81. Syntax Challenge

`<aside></aside>`

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q82. Important Attribute Challenge

Use sidebar-related content.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q83. Secret Solution Challenge

Create related posts section.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q84. Real-Time Example Challenge

Create blog sidebar.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q85. Big Topic Used Challenge

Create dashboard widgets.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

FOOTER TAG

Q86. Syntax Challenge

`<footer></footer>`

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q87. Important Attribute Challenge

Use copyright and links.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q88. Secret Solution Challenge

Create footer with quick links.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q89. Real-Time Example Challenge

Create company footer.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q90. Big Topic Used Challenge

Create multi-column footer.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

DETAILS TAG

Q91. Syntax Challenge

`<details><summary></summary></details>`

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q92. Important Attribute Challenge

Use open attribute.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q93. Secret Solution Challenge

Create FAQ accordion system.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q94. Real-Time Example Challenge

Create help/support section.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q95. Big Topic Used Challenge

Create documentation FAQ.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

PROGRESS TAG

Q96. Syntax Challenge

```
<progress value='50' max='100'></progress>
```

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q97. Important Attribute Challenge

Use value and max properly.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q98. Secret Solution Challenge

Create loading indicators.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q99. Real-Time Example Challenge

Create course progress tracker.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.

Q100. Big Topic Used Challenge

Create LMS progress system.

Important: Use proper HTML syntax, indentation, semantic tags and meaningful structure.
